**Wholesale Pricelist**

(minimum order \$25)

**Microgreens:**

**Individually packaged in 24oz compostable clamshell containers:**

Sunflower 4oz-----\$4.00  
Pea-shoots 4oz-----\$4.00  
Radish 3oz-----\$4.00  
Broccoli 3oz-----\$4.70  
Fenugreek 3oz-----\$4.70  
Salad Mix 3oz-----\$4.70  
(10% discount for orders of \$200 or more)

Our compostable clam shell containers cost us around 70 cents each. We can take 50 cents off each unit if you would rather these come in plastic bags. However, this will reduce shelf life.

**Bulk microgreens per pound, packaged in ½ pound bags or reusable bins.**

Sunflower -----\$12  
Pea-shoots -----\$12  
Radish -----\$14  
Broccoli -----\$18  
Fenugreek -----\$18  
Salad mix -----\$18  
(10% discount for bulk orders of 10lbs or more)

All our microgreens are greenhouse grown in soil with all organic methods and organic seed. However, we are not yet certified organic. We only water with filtered and structured water. No pesticides or fertilizers are used. We harvest fresh microgreens every Wednesday. Shelf life is 14 – 18 days for Sunflower and Pea-shoots and around 10 – 14 days for all others from time of harvest. We plant to order so please allow 2 weeks lead time. Please place orders through email if possible. Free samples available. Custom growing of other varieties and alternative harvest times available so please let us know your needs. We are happy to negotiate.
